IonIdea has over 20 years of experience in Information Technology Solutions and Services, with its headquarters in the United States. The company’s global offices are spread across India, Europe, Middle East and Singapore.

IonIdea has developed IonEMS®, a software solution for Autonomous Institutes and Universities for automating end to end Examination section process, ie, from Admission to Graduation!

Our IonEducation has several other products which have been developed and successfully implemented in collaboration with leading education researchers and academicians.

**Domain Expertise**

- More than 50% of Autonomous institutes in Karnataka are using IonEMS since 2008.
- Our expertise includes automating and improving the EMS processes, consulting for adoption of automation in a phased manner and consulting institutions for an autonomy readiness.

**Benefits for Stakeholders**

- Services: Pushes Essential Data to all Stakeholders via SMS, Email and Dashboards, Calendar of events, Time table, reminders for important dates and results.
- On-demand: Hall Tickets, Results, Grade Cards, Time table, Class Notes and Assignments.
- Drill down from macro Level to nano level granularity.
- Formative and Summative Results, Grading, CGPA, SGPA.
